I GOT LOVE

AW2026

AW 2026

I GOT LOVE — And That's Enough

This Autumn/Winter2026 collection is an invitation to slow down and turn inward. It reflects a belief that true richness is not defined by what we accumulate, but by how deeply we connect — to ourselves, to others, and to the moments that shape our everyday lives.

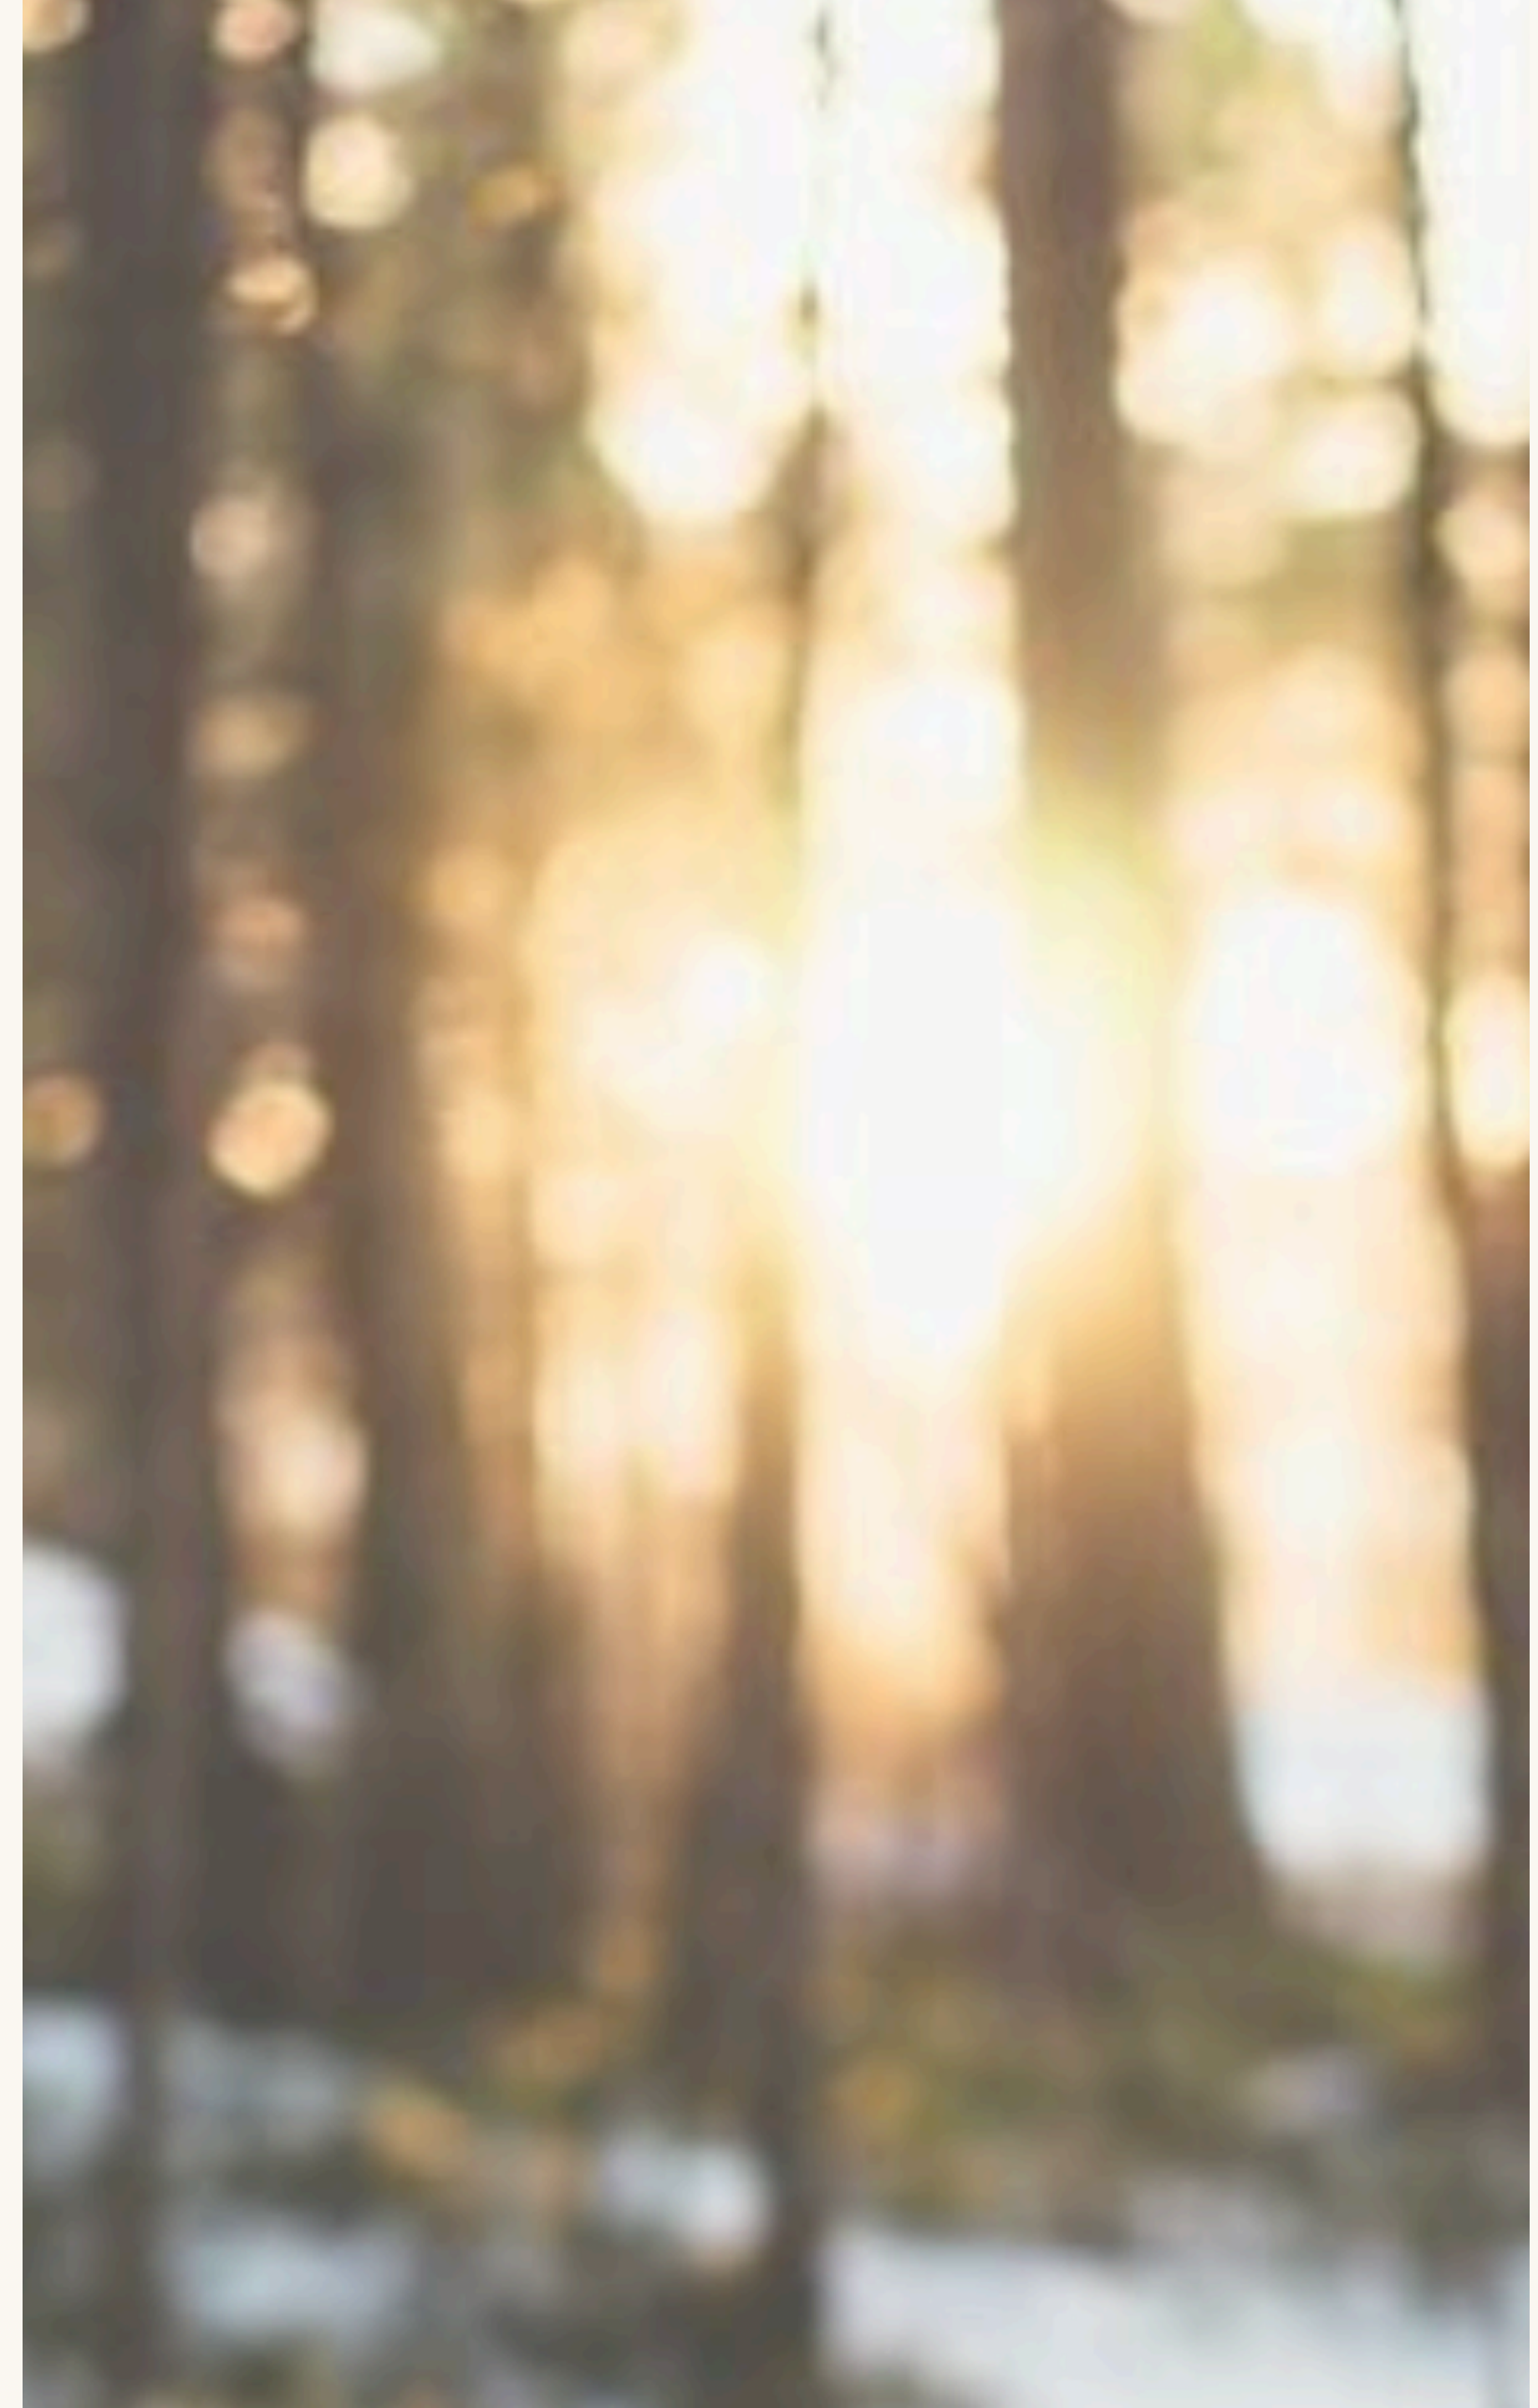

Inspired by the song “I Got Love”, the collection embraces a quieter kind of abundance. One that values presence over prestige, substance over spectacle. It speaks to self-love not as indulgence, but as care: eating good food, cultivating harmonious relationships, spending time with intention, and choosing the things that genuinely nourish us.

At the heart of the collection is the feeling of clothing itself. Natural materials rest softly on the skin, offering warmth, breathability, and comfort. Timeless designs allow each piece to become part of life rather than a statement about it — garments that feel familiar, grounding, and honest. Wearing them becomes a daily ritual of respect for the body and for craftsmanship.

When we feel comfortable and content in what we wear, we move through the world with ease. That ease creates space for openness, connection, and meaningful encounters.

In a world driven by speed, noise, and constant wanting, this collection stands for enoughness. For choosing what feels right, what lasts, and what brings calm confidence.

**Because when there is love —
for yourself, for others, for the way you live —
that is more than enough.**

Dear customers & friends,

I GOT LOVE — And That's Enough

This Autumn/Winter collection turns inward, toward what truly matters. It is about richness that cannot be measured — a deep connection to ourselves, to others, and to the way we live.

Inspired by the quiet conviction of “I Got Love”, the collection celebrates choosing depth over excess. Self-love here is care: eating well, nurturing meaningful relationships, spending time intentionally, and doing what brings calm and joy. It is also about wearing garments that feel right — natural materials on the skin, honest craftsmanship, timeless forms that do not chase trends.

Each piece is designed to accompany real life: moments of stillness, shared meals, work done with care, and the simple pleasure of feeling comfortable and content in what you wear. The quality of the fabric, the weight, the texture — all invite closeness and presence.

From this sense of connection grows quiet confidence, warmth, and joy. Because when you have love — that's enough.

We cordially invite you to watch the mood video for inspiration before browsing this look book, and wish you a successful AW26 pre-order season.

If you have any questions or require assistance, please do not hesitate to reach out to us. Your feedback is highly appreciated as we strive to continuously improve our services.

ABOUT MERZ B. SCHWANEN

Merz b. Schwanen designs and crafts original consciously made clothing. Driven by steadfast values of heritage, integrity, and sustainability, our family-run, Berlin-based business is a quiet antidote to the world's feverish pace and mercurial trends. Much like our centenarian loopwheelers, Merz b. Schwanen moves with purpose, patience, and a penchant for timelessness.

AW2026 colors

Colors That Bring Us Back to Ourselves

This season's palette is rooted in warmth, depth, and quiet confidence.

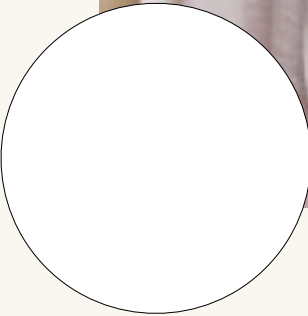

Rich brown tones — **ESPRESSO, COFFEE, and CHOCOLATE**— form the foundation, grounding the collection in comfort and familiarity. They are balanced with **DUSTED KHAKI** and natural greens in **FOREST** and **ARMY** shades, evoking a calm connection to nature.

New energy enters through **INDIGO SHADES** and layered blue tones, bringing a fresh clarity that pairs effortlessly with denim. These shades add contrast while remaining timeless.

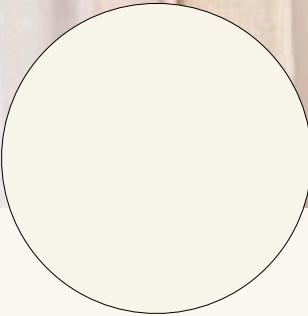

A second story draws from mid-century influences: rich browns meet classic **TEAK**, warmed by strong **RUST** orange, **BURGUNDY**, and **MAROON**. These combinations echo the sophisticated spirit of the 60s and 70s — expressive, warm, and enduring.

DEEP BLACK and **CHARCOAL** remain a constant, joined by new natural and warm brown combinations. Together, the colors feel honest, lived-in, and quietly rich — a palette designed to be worn, felt, and lived with.

COLLECTION STORY AW26

The Merz b. Schwanen autumn/winter '26 collection, 'I GOT LOVE', is a journey, not a destination — one that honors the Earth and reconnects us with its natural rhythms.

Each piece reflects timeless craftsmanship, thoughtfully reinterpreting the basics and essentials we cherish and rely on.

COLORS

ARMY and nuanced green shades such as **FOREST** and **VINTAGE ARMY** define the core palette for AW26. Appearing in various tones and depths, they create a calm, grounded foundation, styled with **BLUE HUES** and **INDIGO** for a natural, open feel — like woods under clear blue skies. The result is an earthy, balanced, and quietly confident color story.

Rich brown tones such as **ESPRESSO**, **CHOCOLATE**, and **COFFEE** add warmth and depth. Combined with black, light nature-inspired hues, and the new army shades, they form one of the key color stories of the season — timeless, comforting, and rooted.

Dark reds including **BURGUNDY** and **MAROON**, alongside vibrant **RUST** and subtle **ROSEWOOD** tones, introduce a sense of inner strength and momentum. Warm yet powerful, this palette reflects the energy to move forward with purpose and confidence.

FABRICS

SATEEN CANVAS, **HERRINGBONE**, and **WOOL TWEED** define the fabric story for Autumn/Winter 2026.

Their structured surfaces create a tactile contrast to sleeker materials, adding depth and balance to each look. Even tonal outfits gain a new dimension through the interplay of textures — structure meeting smoothness, tradition meeting modernity.

CLASSIC TWEED is reinterpreted with a contemporary mindset, combining the strengths of the past with the possibilities of today. The result is a fabric language that feels grounded yet forward-looking, timeless yet relevant — reinforcing the collection's focus on substance, craftsmanship, and enduring quality.

COLLECTION STORY AW26

STYLING

REFINED COMPOSITION

For AW26, styling becomes more structured and intentional.

Layering remains present, but with a clearer focus on form, proportion, and balance rather than volume.

Elements in sateen canvas and modern tweed bring definition to the silhouettes, paired with softer knitwear for contrast and comfort.

Each layer is purposeful, creating composed looks that feel confident, grounded, and versatile.

AW26 styling is about restraint and clarity — where structure and softness work together in a refined, modern way.

DESIGN

TIMELESS ESSENTIALS — EVOLVED WITH PURPOSE

For AW26, we continue to create essentials defined by timeless design, thoughtful construction, and enduring quality.

Rooted in our German workwear heritage, the collection reflects practicality, reliability, and craftsmanship — interpreted through a more refined and structured approach.

Structured styles in sateen canvas and classic tweed bring clarity and depth, balanced with softer knitwear for comfort and ease.

Traditional techniques meet contemporary sensibility, resulting in garments designed to last, adapt, and age with character.

AW26 represents an evolution of our essentials — grounded in heritage, shaped for today, and made to endure.

THE RETURN OF THE HENLEY – A TRUE ESSENTIAL

The Henley is Back – not as a trend, but as a true timeless essential

Versatile, timeless, effortless, it is a **core pillar** of the modern men's wardrobe.

Proof of this **timeless appeal** is the recent **resurgence** of this **iconic** garment.

The **premier choice** of actors, singers, costume designers, and menswear aficionados, our **original** Merz b. Schwanen henleys **stand out** due their **authenticity** and **honesty**.

An Original Merz b. Schwanen Story

Steeped in **history** and **never out of style**, the henley symbolizes a **quiet anti-trend rebellion**.

It stands at the **heart** of Merz b. Schwanen's century long **story**. An **original vintage MbS henley** was the **spark** that led to the re-launch of the brand. So not only is it rooted in **German workwear** and **early sportswear history**, it is the **origin** of **our brand** itself, the **foundation** of our **DNA**.

MULESING-FREE MERINO WOOL

Why do we use certified mulesing-free merino wool?

The mulesing treatment is a painful surgical procedure for sheep, primarily used in Australia due to flystrike for nearly 100 years.

Flystrike is when blowflies lay their eggs in the folds of skin around the tail area of the sheep (for nearly 100 years), the eggs then hatch into larvae and then feed off the flesh of the sheep, risking blood poisoning and death if untreated.

To reduce the risk of flystrike, wool producers have traditionally cut flaps of skin from around the lamb's breech and tail to create an area of bare, scarred skin, which is less likely to attract blowflies. Until recently, this procedure was carried out without any pain relief.

While flystrike does present a serious animal welfare concern, mulesing causes great pain and stress to sheep. Except in Victoria, there is currently no mandatory requirement for producers to apply anaesthetic or pain relief during and after the procedure.

We use certified mulesing-free merino wool for our garments.
